

## Cheq Suites

Streamline the suite pre-ordering process with an automated solution that prepares staff and drives increased revenue.

### Why Cheq Suites?

#### Preparation

Manage suites, events, menus, orders, reports, and more within a single, user-friendly platform. This prepares staff for events allowing them to focus on providing top-notch service and upselling.

#### Customer Satisfaction

Enable suite owners to pre-order through our modern, mobile-friendly customer ordering portal. They'll save time while you operate efficiently and eliminate the risk of incorrect orders.

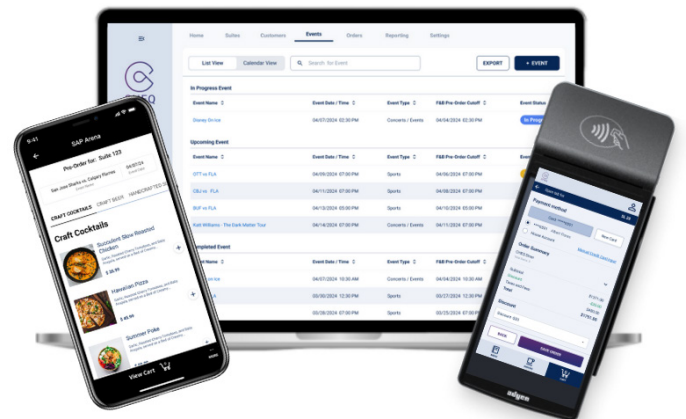

#### Event Day Servicing

Take additional orders on our handheld devices that route directly to the kitchen and allow for an easier, single-bill batching experience at the end of the event.

### It's Simple.

Manage your suite efficiently with our three-part solution. All three components work together to streamline pre-orders, late pre-orders, and event day orders. Plus, **you can receive last-minute orders without any manual data entry** on event day!

#### Partner Portal

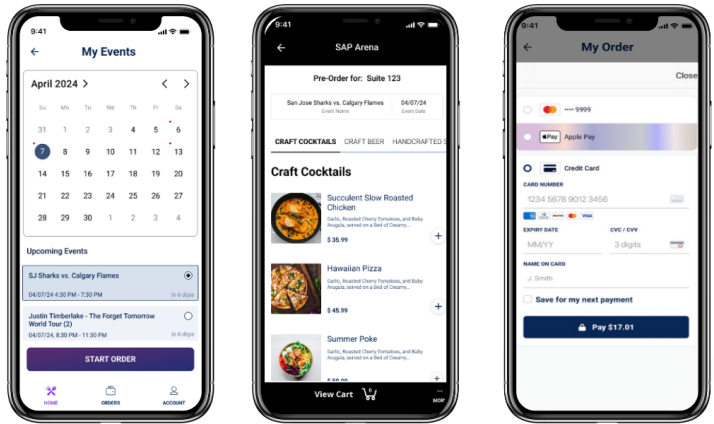

**Customer  
Ordering Portal**

**Handheld  
POS**

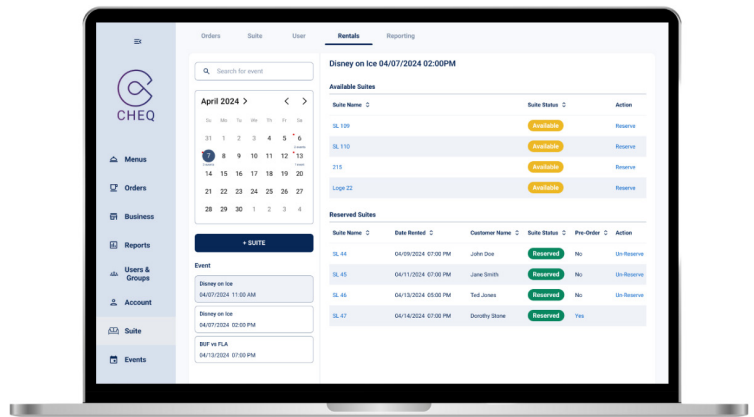

# Customer Ordering Portal

A user-friendly web application that equips suite owners to place or change their pre-orders prior to an event.

# Partner Portal

A complete suite management tool designed to prepare your suite staff and maximize efficiency.

# Handheld POS

Handheld POS terminals process event day orders and route them directly to the kitchen.
